2022-2025 Instructional Technology Plan - 2021

I. District LEA Information

Page Last Modified: 06/29/2022

1. What is the name of the district administrator responsible for entering the Instructional Technology Plan data?

Michael Pangallo

2. What is the title of the district administrator responsible for entering the Instructional Technology Plan data?

Assistant Superintendent

For help with completing the plan, please visit 2022-2025 ITP Resources for Districts on our website, contact your district's RIC, or email edtech@nysed.gov.

06/29/2022 01:09 PM Page 1 of 24

2022-2025 Instructional Technology Plan - 2021

II. Strategic Technology Planning

Page Last Modified: 06/29/2022

1. What is the overall district mission?

At Lyons Central Schools, we empower all learners to shape their world. We meet every learner where they are and provide them with engaging and personalized opportunities for growth.

2. What is the vision statement that guides instructional technology use in the district?

The Lyons Central School District seeks to develop a plan by which relevant, current technology devices and programs are used consistently and frequently to provide students with a curriculum that is personalized and differentiated to meet the needs of every student while preparing students with the technical skills necessary to be prepared with the 21st-century skills necessary to be successful in the future. We seek to build creativity, collaboration, critical thinking, and communication skills through the use of technology in innovative ways.

 Summarize the planning process used to develop answers to the Instructional Technology Plan questions and/or your district comprehensive Instructional Technology Plan. Please include the stakeholder groups participating and the outcomes of the instructional technology plan development meetings.

The district technology committee is directly responsible for the development, implementation and review of the district technology plan. This committee consists of the Superintendent, Assistant Superintendent for Business, Coordinator of Network and Technology Services, Sr. Computer Serevices Assistant, Assistant Supereintendent for Instruction, Director of Educational Services, building Principals, Teachers, Teaching Assistant for Technology, and school Librarian. Timeline of the planning process started in January 2022, departments created the plan by reviewing and discussing during administrative bi-monthly meetings. The outcomes of the plan development identified the need to to replace two grade levels of chormbooks each year and update outdated equipment (Smartnoards) with new interctive boards and moble devices and decide which educational software to purchase.

4. How does the district's Instructional Technology Plan build upon, continue the work of, and improve upon the previous three-year plan?

The planning process was different than previous years by involving more stakeholder groups. The planning committee identified strendgths and areas of improvement from the previous plan by surveying staff and students to see what tech implementations have and haven't worked over the past three years. This plan intends to address some goals that have not been fully met by filling the gaps that presented themselves. This plan involves new personal that were intentionally hired such as dedicated ASI, a Sr. CSA, and a CSA. Some job resonsabilities of these decicated employees are assiggend duties to the meet the goals of privious plan. One of the goals of our privious plan was to update classroom technology such as smartboards and interactive boards. This group has decided to replace outdated Smartboards with updated interactive screens.

5. How does the district Instructional Technology Plan reflect experiences during the COVID pandemic?

During the COVID pandemic, the work to integrate technology was rapidly accelerated to demand blended learning in all classrooms across the district. The district needed to purchase/activate additional wifi hotspots than what was previously in use as well as to purchase additional Chromebooks to replace an uncharacteristically large number of damaged devices after devices were sent home with every student during the initial closure. Weekly professional development was provided for staff to support best instructional practices in blended learning environments as well as to provide training for students and families to support virtual learning. While this adjustment was accelerated during the initial phases of the pandemic, the District will maintain these supports in place to ensure readiness for any future situations which would warrant a shift to virtual instruction.

6. Is your district currently fully 1:1?

Yes

7. Please describe the professional development plan for building the capacity of educators and administrators in the attainment of the instructional technology vision as stated in response to question 2.

Ongoing professional development is provided monthly to share new technology tools for supporting the instruction of culturally-responsive, rigorous, standards-based curriculum as well as to analyze the data provided through the use of these technology tools. During the period of this technology plan, the district will employ six new instructional coaches who will facilitate PLCs, weekly professional development, and individual coaching to ensure that technology is appropriately maximized to support student learning.

For help with completing the plan, please visit 2022-2025 ITP Resources for Districts on our website, contact your district's RIC, or email edtech@nysed.gov.

2022-2025 Instructional Technology Plan - 2021

III. Goal Attainment

Page Last Modified: 04/12/2022

Overview: In this new section, the District is asked to outline the extent to which they have achieved, at the local level, goals put forth in the 2010 Statewide Learning Technology Plan.

 Digital Content – The District uses standards-based, accessible digital content that supports all curricula for all learners. The district has met this goal:

Fully

2. Digital Use – The District's learners, teachers, and administrators are proficient in the use of technology for learning. The district has met this goal:

Fully

3. Digital Capacity and Access – The District's technology infrastructure supports learning and teaching in all of the District's environments. The district has met this goal:

Fully

4. Leadership – The District Instructional Technology Plan is in alignment with the Statewide Learning Technology Plan vision. The district has met this goal:

Fully

Accountability – District-level information is posted on the District website, is easy to access, and is
easily understood. Information provided includes the results achieved by the District in their efforts to enable
students to build knowledge, master skills, and grasp opportunities for a better life. The district has met this goal:

Significantly

For help with completing the plan, please visit 2022-2025 ITP Resources for Districts on our website, contact your district's RIC, or email edtech@nysed.gov.

06/29/2022 01:09 PM Page 3 of 24

2022-2025 Instructional Technology Plan - 2021

IV. Action Plan - Goal 1

Page Last Modified: 04/12/2022

1. Enter Goal 1 below:

Goal 1: Support innovative technology use to promote student inquiry-based learning and personalized learning opportunities by implementing and integrating new and innovative technology.

2. Select the NYSED goal that best aligns with this district goal.

Provide technology-enhanced, culturally- and linguistically-responsive learning environments to support improved teaching and learning

3. Target Student Population(s). Check all that apply.

₹	All students	☑	Economically disadvantaged students
☑	Early Learning (Pre-K -3)	✓	Students between the ages of 18-21
☑	Elementary/intermediate	✓	Students who are targeted for dropout prevention or
☑	Middle School		credit recovery programs
☑	High School	✓	Students who do not have adequate access to
☑	Students with Disabilities		computing devices and/or high-speed internet at their
☑	English Language Learners		places of residence
☑	Students who are migratory or seasonal farmworkers,	✓	Students who do not have internet access at their place
	or children of such workers		of residence
☑	Students experiencing homelessness and/or housing	✓	Students in foster care
	insecurity	✓	Students in juvenile justice system settings
		ゼ	Vulnerable populations/vulnerable students

☐ Other (please identify in Question 3a, below)

4. Additional Target Population(s). Check all that apply.

2	Teachers/Teacher Aides
☑	Administrators
☑	Parents/Guardians/Families/School Community
	Technology Integration Specialists
П	Other

5. How will this instructional technology goal be measured and evaluated during and after implementation? Be sure to include any tools and/or metrics that are part of this evaluation process. Examples might be formative data, local, state, and/or national LEA benchmarks, metrics from instructional software, other technology evaluation programs, etc.

Data from district-wide learning walks will be reviewed to examine the degree to which technology is used according to the SAMR model to redefine what learning looks like in our classrooms. A rubric will be developed collaboratively with the district technology committee to measure and evaluate the use of technology across the SAMR model. Data gathered using this rubric will be shared with District instructional coaches to guide professional development sessions. This goal will be considered accomplised if the analysis of learning walk data indicates that at least 85% of instructional technology use falls within the modification and redefinition categories of the District SAMR rubric.

6. List the action steps that correspond to Goal #1 from your answer to Question 1, above. All cells in the table must be populated. If you have less than four action steps for this goal, you must enter N/A into columns two, three, four, five, and seven, and choose June 30, 2021 in the date column for all unneeded rows in the table.

- 5. How will this instructional technology goal be measured and evaluated during and after implementation? Be sure to include any tools and/or metrics that are part of this evaluation process. Examples might be formative data, local, state, and/or national LEA benchmarks, metrics from instructional software, other technology evaluation programs, etc.

Annual curriculum reviews will demonstrate the integration of the CS & DF standards into grade-level curricula while district learning walks will show the implementation of these standards in instruction. Curriculum review will be conducted annually by the building principals, assistant superintendent for instruction, and instructional coaches as a part of the Curriculum Council meetings. Recommendations will be made by the curriculum council for futher professional development that is needed to support the adoption of the standards across all grades. This goal will be considered accomplished once all district curriculum maps and learning walks evidence full integration of these standards according to the NYSED roadmap.

6. List the action steps that correspond to Goal #2 from your answer to Question 1, above. All cells in the table must be populated. If you have less than four action steps for this goal, you must enter N/A into columns two, three, four, five, and seven, and choose June 30, 2021 in the date column for all unneeded rows in the table.

2022-2025 Instructional Technology Plan - 2021

V. NYSED Initiatives Alignment

Page Last Modified: 06/29/2022

 Explain how the district use of instructional technology will serve as a part of a comprehensive and sustained effort to support rigorous academic standards attainment and performance improvement for students.

The use of instructional technology is a daily tool for supporting high-quality instruction across the district. Every teacher is expected to maintain a Google Classroom for each class to ensure student access to course material at any time. At the secondary level, students use Google Classroom as a platform for completing and submitting 70-80% of course assignments and for receiving personalized feedback from teachers. At the elementary level, instructional technology is used mostly during instructional centers to support direct instruction topics and learning through the use of a variety of apps including iReady, MobyMax and Khan Academy. Teachers are able to assign lessons to reinforce grade-level standards and learning. Every elementary classroom is expected to implement the use of iReady for both reading and math supplemental learning weekly.

2. Explain the strategies the district plans to implement to address the need to provide equitable learning "everywhere, all the time" (National Technology Plan). Include both short and long-term solutions, such as device access, internet access, human capacity, infrastructure, partnerships, etc.

The Lyons Central School District is completely 1:1 with devices for students and staff to ensure access to a device at all times. Additionally, the District provides wifi hotspots for any family or staff member who does not have sufficient wifi access at home. As District school buses are replaced, wifi is added to school buses to ensure further access to internet. The District maintains two Computer Service Assistants and one Senior Computer Service Assistant in addition to its Director of Network Technology Services to ensure that devices are maintained in high-quality working order for student and staff use. The District also participates in regional trainings offered through Edutech to ensure data security and privacy as well as alignment with best practices for instructional technology integration.

3. Students with disabilities may be served through the use of instructional technology as well as assistive technology devices and services to ensure access to and participation in the general education curriculum. Describe how instruction using technology is differentiated to support the individual learning needs of students with disabilities.

Technology applications were use to serve students with diablilities such as hearing aids, and diabetes monitoring, etc. Teachers used tecchonology to address accessibility and to differentiate the instruction of students with disablities using software that enabled the teacher to instantly view the answers to questions during class through the use of a Chromebook for students with hearing disabilities. This allow all students within the class to receive the same instruction. Teachers used this feedback to accommadate the students best learning technique.

- 4. How does the district utilize technology to address the needs of students with disabilities to ensure equitable access to instruction, materials, and assessments? Please check all that apply from the provided options and/or check 'Other' for options not available on the list.
 - ☑ Class lesson plans, materials, and assignment instructions are available to students and families for "anytime, anywhere" access (such as through a class website or learning management system).
 - Direct instruction is recorded and provided for students to access asynchronously (such as through a learning management system or private online video channel).
 - ☑ Technology is used to provide additional ways to access key content, such as providing videos or other visuals to supplement verbal or written instruction or content.
 - ☑ Text to speech and/or speech to text software is utilized to provide increased support for comprehension of written or verbal language.
 - lacktriangleq Assistive technology is utilized.
 - ☑ Technology is used to increase options for students to demonstrate knowledge and skill.
 - ☑ Learning games and other interactive software are used to supplement instruction.
 - ☐ Other (please identify in Question 4a, below)

2022-2025 Instructional Technology Plan - 2021

V. NYSED Initiatives Alignment

Page Last Modified: 06/29/2022

- 10. How does the district use instructional technology to facilitate culturally responsive instruction and learning environments? Please check all that apply from the provided options and/or check 'Other' for options not available on the list.
 - ☐ The district uses instructional technology to strengthen relationships and connections with families to assist in building a culturally responsive learning environment to enhance student learning.
 - ☑ The district uses instructional technology to facilitate classroom projects that involve the community.
 - ☑ The district uses instructional technology to develop and organize coherent and relevant units, lessons, and learning tasks that build upon students' cultural backgrounds and experiences.
 - ☑ The district uses instructional technology to assist in varying teaching approaches to accommodate diverse learning styles and language proficiencies.
 - ☐ The district uses instructional technology to enable students to communicate and collaborate with students in different schools or districts in New York State, the United States, or with different countries.
 - ☑ The district uses instructional technology to facilitate collaborative classroom projects among heterogeneous student groups.
 - ☐ Other (please identify in Question 10a, below)

For help with completing the plan, please visit 2022-2025 ITP Resources for Districts on our website, contact your district's RIC, or email edtech@nysed.gov.

2022-2025 Instructional Technology Plan - 2021

VI. Administrative Management Plan

Page Last Modified: 06/29/2022

1. Staff Plan Provide the Full-Time Equivalent (FTE) count, as of plan submission date, of all staff whose primary responsibility is delivering technology integration training and support and/or technical support.

	Full-time Equivalent (FTE)
District Technology Leadership	1.00
Instructional Support	7.00
Technical Support	3.00
Totals:	11.00

2. Investment Plan Provide a three-year investment plan to support the vision and goals. All costs must be calculated for the entire three year-period, not annualized. For example, if a cost occurs annually, the estimated cost should include the annual cost times three. Provide a three-year investment plan to support the vision in Section II and goals in Section IV. A chart with drop-down choices is provided in order for NYSED to obtain consistent responses to this question. All cells in the table must be populated. If you have less than four items in your plan, you must choose N/A for columns one, two, four, five and six, and put zero in column three (estimated cost) for each unneeded row.

	Anticipated Item or		Estimated Cost	Is Cost One-time,	Potential Funding	"Other" Funding
	Service	Item or Service		Annual, or Both?	Source	Source
1	End User Computing Devices	N/A	240,000	One-time	 ☑ BOCES Co-Ser purchase ☑ District Operating Budget □ District Public Bond ☑ E-Rate ☑ Grants ☑ Instructional Materials Aid □ Instructional Resources Aid ☑ Smart Schools Bond Act □ Other (please identify in next column, to the right) □ N/A 	N/A
2	Peripheral Devices	N/A	500,000	One-time	 ☑ BOCES Co- Ser purchase ☑ District Operating Budget □ District Public Bond □ E-Rate 	N/A

3. Has the school district provided for the loan of instructional computer hardware to students legally attending nonpublic schools pursuant to Education Law, section 754?

Not Applicable

4. Districts are required to post either the responses to this survey or a more comprehensive technology plan that includes all of the elements in this survey. Please provide the URL here. The URL must link to a public website where the survey or plan can be easily accessed by the community.
